

## **J/K 2019: Bratislava - 10-14 June 2019**

This is to announce the *J/K 2019* meeting, which will be held in combination with the annual *Jurassica* conference, organised by Slovak and Polish colleagues; as before, very successfully, at Smolenice Castle.

This meeting will be the conclusion of an enormous amount of work by the Berriasian Working Group of ISCS, and the culmination of studies over the last ten years. At the June meeting, there will be a discussion of the final proposals for a Berriasian GSSP (due to be submitted to ISCS in October 2019).

At Bratislava, presentations on Tithonian/Berriasian boundary research and progress will be combined with those on solely Jurassic topics: with a separate Berriasian business meeting within the context of the conference.

**Please, put the dates 10-14 June 2019 in your diary, and attend the J/K 2019 meeting in Bratislava.** More information and details about the conference are anticipated soon.
